

Level 6 NVQ Diploma in Construction Contracting Operations Management

This Level 6 qualification provides a nationally recognised qualification for candidates working in a management role in the construction industry.

Candidates follow one of five pathways depending on their job role: Estimating, Buying, Planning, Surveying and General.

Whilst there are no formal entry requirements for this qualification, Positive Safety Solutions will carry out an initial assessment of candidate skills and knowledge to identify any gaps and help plan the assessment.

To achieve the qualification candidates must complete ALL the Mandatory units, plus the Mandatory/Optional unit requirements in one of the Pathways:

Mandatory Units (Complete All)

| Unit Reference Number | Unit Title |
|-----------------------|---|
| F/600/7432 | Maintain health, safety and welfare systems in construction |
| L/600/7434 | Manage the performance of teams and individuals in construction |
| H/600/7441 | Chair meetings and take decisions in construction |
| M/600/7443 | Enhance working relationships in construction |

At Positive Safety Solutions, as part of this NVQ, we offer the “General” pathway to completion as we believe that this offers most flexibility to the learners and their organisations the units of which are detailed below. Other pathways can be made available if required.

Optional Units – a minimum of FOUR units must be completed

| Unit Reference Number | Unit Title |
|-----------------------|--|
| K/600/7456 | Specify and control production documents in construction |
| D/600/7471 | Optimise and control contract progress and costs in construction |
| H/600/7472 | Prepare and agree contract accounts and claims in construction |
| F/600/7446 | Identify, assess and evaluate project requirements in construction |
| M/600/7457 | Prepare procurement schedules and programmes of work in construction |
| D/600/7468 | Evaluate and confirm work methods and programme in construction |
| A/600/7431 | Plan measured surveys in construction |
| A/600/7445 | Ascertain the condition of property in construction |
| R/600/7449 | Develop and agree detailed project designs in construction |
| M/600/7460 | Implement strategic and integrated supply chain management and sourcing partnerships in construction |
| L/600/7465 | Obtain tenders and appoint successful contractors in construction |
| R/600/7466 | Evaluate enquiries and submit tenders in construction |
| H/600/7469 | Analyse, monitor and optimise materials, plant and services in construction |
| Y/600/7470 | Control contract work in construction |

Successful completion of this qualification allows the learner to apply for the CSCS Black Site Managers Card.*

In addition, successful learners can apply for membership of the Chartered Institute of Building (MCIOB)**
